-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/09/06 has been entered.

#### ***Specification***

2. The use of the trademarks Attagel 30, Acrysol rm-8w AND Acusol 820 have been noted in this application. They should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 22 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. The phrase "less than about" renders the claim indefinite in that it includes an amount of zero. The rheology modifier is required per claim 14.

***Claim Rejections - 35 USC § 103***

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 14-20 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chacko, US Patent No. 6,686,033.

8. Chacko discloses sound-damping compositions styrene-acrylic latex including n-butyl-acrylonitrile-styrene copolymer fillers such as mica and glass beads in an amount ranging from 0.5 to 5.0% of the composition and additional additives including thickeners such as rheology modifiers known as Acrysol. The compositions may be aqueous. It would have been obvious to one of ordinary skill in the art at the time of applicant's invention to select any of the disclosed components of patentee's disclosure and formulate them into sound-dampening compositions in the manner described in the patent. Since a component and its inherent functions may not be separated, various properties such as density and glass transition temperature would inherently be achieved upon formulation of the patented compositions. See col. 2, line 47 through col. 4, line 64 and col. 7 line 46 through col. 8, line 11.

***Allowable Subject Matter***

9. Claims 25-35 and 37-53 are allowed.
